

## WORLD HAPPENINGS BRIEFLY TOLD

Franz Kralin, 50-year-old civil servant, was beheaded in Berlin following his conviction of espionage.

Sir Hubert Wilkins, Australian Arctic explorer, arrived at Oslo aboard the Polar ship Wyatt Earp to prepare for a visit to the North Polar region.

Two railway cars carrying a corps of rangers to a forest fire jumped the track at Hochi, Japan, and plunged into a 200-foot chasm, killing 13 and injuring 33.

Anti-Fascist Moroccans paraded the streets in Casablanca, Algeria, with pieces of macaroni attached to their clothing calling Italy "Islam's Public Enemy No. 1."

Perival Price, carillonneur for the Peace Tower carillon at Ottawa since 1927, announced he had accepted an offer to be university carillonneur and professor of composition at Michigan University at Ann Arbor, Mich.

A Vatican news service says the Vatican has established a detective squad to stop smuggling from Vatican City to Rome. Coffee which now is almost unobtainable in Italy is plentiful and cheap in the Papal city.

The ashes of Sir Philip Sassoon were scattered over the picturesque grounds of his country mansion at Trent Park by planes of his former squadron. Sir Philip was one of the wealthiest men of Great Britain.

The Soviet government has announced that its 1939 census showed Russia had a population of 170,467,166. The total represented an increase of 15.9 per cent. over the Soviet union's 1926 population.

Prime Minister Chamberlain and Polish Ambassador Edward Raczyński conferred amid reports they discussed a possible British loan of \$20,000,000 or £30,000,000 (£93,600,000 or \$140,000,000) to bolster Poland's defenses.

### Splitting The Atom

Lord Nuffield Has Equipped Laboratory For Research Work

Lord Nuffield has marathoned science in an attempt to split the atom in his latest effort to fight disease.

The millionaire motor manufacturer who has scattered fortunes about the Empire on hospital charities, has built and equipped a \$300,000 laboratory and hopes the split atom will release energy producing radio-active materials which, like radium, will help in the treatment of disease.

The work will be carried out by Professor M. D. Oliphant, 38, director of physics research at Birmingham University and assistant to the late Lord Rutherford, conductor of pioneer experiments at atom splitting.

Professor Oliphant will use a 280-ton apparatus now being completed at Glasgow. It comprises a 13-foot hollow cube of steel with wall two feet thick. Around the outside will be wound miles of copper wire.

Five million volts of electricity will be shot through the wire and foot-long spark will leap between two poles inside the cube bombarding a container holding the element whose atom is to be split. It is hoped the powerful flow of electricity will release energy, making the element artificially radio-active.

### Small Men In History

#### Most Of Military Geniuses Have Been Under Average Height

General Franco, Spain's new dictator, takes his place among the short men who have made history, says the Hamilton Spectator. Less than five feet four he is two inches shorter than Adolf Hitler, and his contemporaries—Napoleon, Washington, George Washington, and his son, George Washington, Jr.—all of whom have been subjected to the nicely-turned theorizing of an era that likes to find patterns and keep them.

For most of the great military geniuses of history have been small in stature. Julius Caesar, Genghis Khan, Alexander the Great, Napoleon, Nelson and Ulysses Grant, of American Civil War fame—all were of this type. It is, therefore, pondered as to whether ambition for aggrandizement is not linked with a distinct inferiority in size, a field that plainly belongs to the psychologists.

It is a phenomenon that should be kept there, or the international scene will get even more complicated than it is now.

#### Received Ship Money

The Duke of Kent flew back to London recently after a whirlwind tour of his numerous country. At Sandwich, one of the Cinque ports, on Britain's southeast coast, an ancient ceremony was revived when the duke was given a gold half-sovereign as "ship money."

Hens that are fed lobster shell will produce eggs with red-orange yolks.

### Oranges For Germany

#### General Franco Paying Part Of War Debt In Fruit

Oranges in seemingly plentiful quantities brightened Berlin tables after many months of inability to get more than one or two, if any, because of the Nazi Government's food conservation policy.

The appearance of the big boxes of the Spanish fruit in stores eased a burden for housewives and prompted many questions as to why oranges suddenly became plentiful. The customary answer given in streets was that Spanish National Leader General Franco was paying off part of his "war debt" to Germany in that way.

Otherwise, German supplies of food and raw materials are practically on a wartime footing. Food hoarding has been undertaken on a gigantic scale by the German State. Canneries are putting up meats, vegetables and fruits as reserves against the possibility of war.

Benzine, copper, nickel, textiles and dozens of other commodities essential for the conduct of war are also being stored.

About the first question any foreign resident in Germany hears from a visitor: "Is there really a food shortage here? I seem to be about to get all the butter and eggs I want, and there is some fruit."

The casual visitor, however, lives in the standard hotels. Or, if he lives with friends, they have done a bit of hoarding to provide the best possible entertainment for the guest.

This is part of an effort to make foreign travellers feel that food is plentiful. They do not usually notice that food is expensive, for they pay only half of what the native or the foreign resident pays. A North American resident in Germany gets about 248 reichsmarks for a dollar. A visitor entitled to travel marks about 5.40 marks for a dollar, and naturally finds many things inexpensive.

### SELECTED RECIPES

#### FRUIT NUT ROLL

1/2 cup whipping cream  
1/2 tablespoons apple butter or fruit pulp (apicot or berry)

24 Christie's Vanilla Wafers  
1/4 cup chopped nut meats or

1/2 cup cream cheese or

Whip cream until stiff and fold in apple butter or fruit pulp. Spread a generous amount of this mixture on each vanilla wafer and stack on top of another. Let the roll dry on a platter or a platter and coat with the remaining cream mixture. Sprinkle with chopped nut meat or coconut and chill at least three hours. Slice diagonally when serving. Six portions.

#### GRIDDLE CAKES

1/4 cup sifted Swans Down Cake Flour

1/4 teaspoons Calumet Baking Powder

1/2 teaspoon salt

4 egg yolks, slightly beaten

2 tablespoons melted butter or

other shortening

2 egg whites, slightly beaten

sift flour once, measure, add baking powder and salt; sift again.

Combine egg yolks and milk; add gradually to flour mixture only until smooth and chartreuse. Bake on hot griddle. Serve hot with Log Cabin Syrup. Makes about nine griddle cakes.

Note: One teaspoon sugar may be added with flour, if a sweeter griddle cake is desired.

#### A Dangerous Toy

#### Parents Asked Not To Give Children An Air Gun

An appeal to parents not to give their children air-guns as gifts was made by the Chief Constable of Cambridge when three boys appeared to answer a summons for carrying and firing air-guns in the street.

"There is a growing tendency on the part of many parents," he said, "to present these air-guns to their children, never realizing that they are equipping them with a powerful and dangerous weapon. Coupled with a boy's imagination, his ever-present temptation to shoot and his inaccuracy, make the gift a potential danger."

Legislation recently attempted to curtail their use by prohibiting boys and youth from buying them, but at the same time made it permissible for a parent to give one to a child. In their misguided kindness parents looked upon an air-gun as merely a toy, but he appealed to them to help to stop a nuisance which often had such terrible and painful results—London Tit-Bits.

#### What's In A Name

The Wall Street Journal gives a list of towns with odd names, which, with the state included, make interesting combinations: Ash, Kan.; Carter, Tex.; Ogo, Ga.; Odear, Me.; Skeleton, Ky.; Shoo, Fla.; Kay, O.; Houdy, Miss.; Fiven, Tenn.

There are 64 streets and squares in London named Albert in honor of Queen Victoria's husband.

### Air Attack Protection

#### Revising Expert Opinion On How To Protect Britain From The Air

British aircraft, delivered without warning by swarms of swift enemy bombers, is rapidly revising the experts' ideas of how to protect Great Britain from attack.

Advocates of a strong counter-offensive against the war production plants and other military objectives belonging to an enemy thus are gaining in numbers.

Many believe that in a general European war a major objective of any power attacking Britain would be to cripple the country by intensive bombing raids.

Since Britain was attacked in the Great War, developments of aviation have changed both theory and practice of aerial warfare.

Then, because of limited flying range most German bombers were forced to enter Britain over the southeast counties of Essex and Kent which were only 80 miles from German air bases in Belgium.

By concentrating anti-aircraft guns around London and Essex and Kent, Britain was able to protect the whole western and northern areas of the island.

Now a minimum 1,600-mile flying range is imposed by bombers.

Many Britons insist the only way to stop raids would be counter-raids on continental plants which turn out replacements for destroyed machines. It would be futile merely to shoot down the raiders, they argue.

### Fifty Years Of Progress

#### Planned Advertising Agency That Has Built Up A Big Volume

From Canada's first small unknown advertising agency to an organization that doles millions of dollars of business a day, the Golden Jubilee issue of the McKinstry's Directory of Canadian Publications, marking the 50th anniversary of the company's brand name that flourished in the genesis of modern Canadian merchandising and which were advertised throughout the world, points out to the directory points out that no less than ten million insertion orders have been issued by the agency. Canadian publications during the past half century.

Through its offices in Montreal, Toronto, Winnipeg, Vancouver, Halifax and London, and branches in Australia, South Africa, New Zealand, India, Egypt, China and France, A. McKinstry & Sons handles an immense volume of advertising. Its internationally renowned annual directory of Canadian publications contains exhaustive data on newspaper management and technical details as well as on markets, geography and other statistical matter. This latest edition is the thirty-second.

#### A New Danger

Animal parasites seldom seen in the north are expected to be encountered more frequently in the future, owing to the rapid air transportation from the South. The Rocky Mountain Medical Journal points out that any person coming from a country in which animal parasites are prevalent is potentially a carrier. The United States Public Health Service requires inspection for such infestation of all persons and aeroplanes on commercial airlines arriving from foreign countries.

Because it has high acid content, tomato is one of the easiest foods to can for保存. The following directions are given:

Wings of some insects beat as fast as 300 strokes a second.

### Young New Princess Frock

By Anne Adams

Curves are "in" again, and tiny waists are prized. So make special note of this summary new Glamor Dresses. It's Anne Adams' latest design—and it will give you a trimmer waistline. Indeed, there's a "siren" charm in every line of this youthful princess frock—from the last-edged scalloping of the bodice to the trimmest hem of the eight-gore skirt! The open part of the sleeves is scalloped too...such a fetching little touch! As for the hem, it's a wide, full circle. The Sewing Instructor gives most valuable directions.

Patent 4142 is available in junior and misses sizes 10, 12, 14, 16 and 18. Sizes 14 takes 3 3/4 yards 39 inch fabric and 3 3/4 yards lace edging.

Cardigan 20 cents (20c in coins—stamps cannot be accepted) for this Anne Adams pattern. Write plainly.

Name, Address and telephone number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

#### His First Corner Stone

#### Canada Just Recently Asked Lord Tweedsmuir To Officiate

The Port Arthur News-Chronicle says: Although His Excellency Lord Tweedsmuir has been Governor-General of Canada nearly four years he officiated at his first corner stone laying in Ottawa only a few days ago. The corner stone was laid by the United States Public Health Service, which had been invited to lay it. The United States Public Health Service requires inspection for such infestation of all persons and aeroplanes on commercial airlines arriving from foreign countries.

Because it has high acid content, tomato is one of the easiest foods to can for保存. The following directions are given:

Wings of some insects beat as fast as 300 strokes a second.

#### ROYALTY RIDE ON LOCOMOTIVE

Their Majesties the King and Queen are shown in the cab of Canadian Pacific locomotive 5919, in which with the state included, make the heavy 22 grade. Their Majesties are shown in sport clothes for the thrilling engine ride.

### SUNDAY SCHOOL LESSON

JUNE 18

#### PAUL WRITES PERSONAL LETTERS

Golden text: Give diligence to present thyself approved unto God, a worker needeth not to be ashamed, handling rightly the word of truth. II. Timothy 2:15.

Lesson: I. Timothy 1:1-16; II. Timothy 1:1-14; Titus 1:1-6; Philippians 1:1-14.

Devotional reading: I. Timothy 4:1-12.

Explanation And Comments

Salutation of the Second Paul to Timothy: I. Timothy 1:1-2. In this salutation Paul gives his credentials as an apostle, addresses Timothy as "my beloved child" and invokes upon him grace, mercy and peace from God, the Father and Christ Jesus our Lord.

"These blessings are the best we can ask for our dearly loved ones. That they may have grace to know that the time of need, and mercy to pardon what is amiss, and so may have peace with God the Father and Christ Jesus our Lord."

"The blessing of the Second Paul to Philemon, Philemon 1:1-3. Timothy was with Paul when this letter was written and joined him in the ministry of Christ Jesus, sending greeting to Philemon, and to Apphia and Archippus, presumably Philemon's wife and son and to the church that met in their home."

Thanksgiving for Philemon's Faith, Love, and Service, Philemon 4-7.

Philemon was a man of means, possibly one of the rich in Ephesus, and may have stayed in Ephesus, and was greatly esteemed and tenderly loved by the apostle because of the way Philemon used his wealth and influence.

He had been in the ministry of Christ Jesus in Colossae. Paul tells Philemon of this, and of his prayer and thanksgiving for him.

Paul's first concern is that Philemon will receive the love of Christ Jesus.

Paul's second concern is that Philemon will be strengthened in his love for Christ Jesus.

Paul's third concern is that Philemon will be strengthened in his love for the church.

Paul's fourth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's fifth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's sixth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's seventh concern is that Philemon will be strengthened in his love for the Word of God.

Paul's eighth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's ninth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's tenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's eleventh concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twelfth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirteenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's fourteenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's fifteenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's sixteenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's seventeenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's eighteenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's nineteenth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twentieth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-first concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-second concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-third concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-fourth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-fifth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-sixth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-seventh concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-eighth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's twenty-ninth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirtieth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-first concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-second concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-third concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-fourth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-fifth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-sixth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-seventh concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-eighth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's thirty-ninth concern is that Philemon will be strengthened in his love for the Word of God.

Paul's forty concern is that Philemon will be strengthened in his love for the Word of God.

Paul's forty-first concern is that Philemon will be strengthened in his love for the Word of God.

Paul's forty-second concern is that Philemon will be strengthened in his love for the Word of God.

### Health League of Canada presents TOPICS OF VITAL INTEREST

by DR. J. W. S. McCULLOUGH

#### ACIDOSIS

The term Acidosis does not mean that the stomach is overfilled with acid. Acidosis is a different thing altogether.

Where there is a real acidosis condition this has been brought about by accidents of diseases. It is incidental to such conditions as diarrhea, excessive vomiting and starvation, to such diseases as diabetes to severe skin burns and absorption of certain poisons.

Quacks have exploited acidosis to the limit. The quack puts forth the erroneous doctrine that acidosis is produced by a wrong combination of foods. He wrongfully asserts that sugar, starch, foods and vegetables should never be mixed, and meat with fruit, etc., though Nature has perfectly balanced such elements in foods such as cereals, vegetables and fruits. He tales of acid blood, forgetting that such a condition is incompatible with life. Blood is actually neither acid nor alkaline, rather it is neutral, or at the most slightly alkaline.

In one's choice of food, neither a weighing scale, a measuring glass nor a book on diet is needed. In temperate climates, experience teaches that cereals with milk and cream, fruits, meat, fish, eggs and vegetables are the best foods. Similarly the cold of the Arctic and Antarctic regions demands a strong protein diet such as meat and fat, while carbohydrates and fruits are the foods for the Tropics. When used with discretion these various diets will suit one's needs.

**Editorial Note:** Readers desiring the complete set of Dr. McCullough's famous articles at once may secure same by writing to The Health League of Canada, 105 Bond St., Toronto, Ont.

### A Public Benefactor

To Honor Man Who Invented Life Saving Apparatus

A man, who though he died 85 years ago, still saves hundreds of lives every year, is to be honored by the people of Helston, Cornwall, his native town.

In 1867 Henry Tengrouse, a cabinet maker, watched H.M.S. Anson, a large 44-gun frigate, being pounded to pieces on the rocks in a gale. He saw more than a hundred souls swept to death without anyone being able to lift a hand to save them.

Tengrouse determined that he would devote his life to inventing some means of rescuing sailors shipwrecked within range of shore.

His inspiration came one year later when he watched a fireworks display at Helston Green. The streaks of fire flashing into the darkness gave him the idea of attaching a rope to a rocket and thereby establishing communication between a wrecked vessel and the shore. Tengrouse spent thousands of pounds in experiments, but died penniless.

Now Helston's borough council is proposing to build a museum in his honor.

#### Some One Pays

Since the government have no income except what they get from the taxpayers, it stands to reason that whenever a special favor is given to one group the money must come from another group, says the Owen Sound Sun-Times. And whoever happens not to belong to any of the favored groups—well, that's his hard luck.

Mussolini, in any gathering of European statesmen, could readily speak German, French and English in addition to his native tongue—but Adolf Hitler, the super-man, never did bother to learn how to speak Italian, even.

**SUMMER  
DESSERTS**  
*the Easy Way*

Get time off from the kitchen by making these quickly prepared and delicious desserts with Canada Corn Starch . . . rich, inviting custard cups, cool, smooth blintz marmalade, apricot jam from desserts. Everyone loves these wholesome ways in weather treat . . . and it's so simple to please because Canada Corn Starch never varies in fineness and smoothness. Ask for it by name.

CHAPTER XII.—Continued

The planes kept flying over them. They returned again and again, but they never hesitated. Kitty Medill stood on her rock and waved, and screamed, but the pilots gave no sign of having heard her.

"You fool, you fool! You blind bat!" she sobbed, crying.

Then she made a careful survey of their situation and realized that they were hidden from above by a ledge over the one on which they had crashed. She might gesture and yell the rest of her life without being seen by the fliers.

"Okeh, then, I'll get out where they can see me," she decided. She didn't try to tell Sarah Lynn. She took off her hat, matched a sheaf of maps and charts and walked in the direction of Mt. Unumnum, stopping constantly to mark the trail in some fashion, tying to the chaparral the ribbon from her hair, her belt, her pink satin garter. When she found a bare rocky space she tore up her papers and gathered twigs and dry leaves and got her fire to go. She ate the last remnants of manzanita and fed the flame, and she discovered that green stuff made a denser smoke.

In an incredibly short time the planes were back, three of them, dipping and circling. She could see the pilots peering down. She stood away from the fire and tore off her blouse and waved, and one of the airmen waved an arm in answer. He flew perilously low, and she recognized the Hermod with Gunnar Thorwald leaning out to look at her. She pointed back toward the place where she had left her passenger, and he nodded and flew away in the same direction.

Her knees gave way and she sat down, and the breeze blew acid smoke into her eyes and mouth, but she was up in a moment, running back to the wreck.

"Babe, it's okeh! He's here! I mean, he will be in a minute—your boy-friend in his bus! Kid, it's all right, do you hear me?"

If Sarah Lynn heard she gave no evidence of it. She seemed to be busily preoccupied talking to herself, and the free hand opened and closed and tensed stiffly, so Kitty Medill raced back again to keep her fire going and wait for Gunnar Thorwald.

It was after this last announcement that Kitty Medill committed suicide, quietly and with a good deal of reticence and dignity.

They did not tell Sarah Lynn about Kitty Medill, famous stunt-flier and moving picture double for dangerous scenes, who was making a first hop after being grounded by the Department of Commerce for reckless flying; she was lost; she was found, and found by Gunnar Thorwald, Norwegian ace, her fiance; she would live; she would live, but she would never walk again.

It was after this last announcement that Kitty Medill committed suicide, quietly and with a good deal of reticence and dignity.

They did not tell Sarah Lynn about Kitty Medill, famous stunt-flier and moving picture double for dangerous scenes, who was making a first hop after being grounded by the Department of Commerce for reckless flying; she was lost; she was found, and found by Gunnar Thorwald, Norwegian ace, her fiance; she would live; she would live, but she would never walk again.

"Gunner . . ." the name came

He was an intolerable time in coming. She had moments of panic in which she was sure he hadn't seen her after all; that she had imagined the Hermod.

At last she saw him working his dimples away through the thick, harsh underbrush.

"She lives?" he demanded hoarsely.

"She's alive, sure."

"Hurt? How?" Ice-blue gimlets, boring into her brain.

"Well, you see—it's her. On her back. The ship is. I tried to lift it off but—"

"Take me there!"

She turned and ran back, Gunnar following so closely that he almost tripped over her. "Quick!" he kept saying. "Be quick!"

When they reached the wreck Kit Medill shut her eyes. She didn't want to see his face when he saw Sarah Lynn, but it was almost as bad to hear him. It sounded as if he had flung himself down on the ground beside her, and Kit thought he must be talking in his own Swedish, for she could not understand the words, but she understood perfectly the terrible, racked sobbing.

When she heard him working Kit took two other men away from her eyes and looked at him. He was working so fast, so furiously, merely in such fierce efficiency. He clenched and chopped and tore away, twisted and pried dead white, with sweat pouring from him. It seemed to Kit, watching the cold frenzy, that he could have done it all with his bare hands.

Once he called to her and pointed to his canteen. "Give her water—a small drink at first." He looked at her fully for the first time. Only that I may need your help," he said evenly. "I would kill you."

"You needn't trouble yourself," she said jauntily. "I can tend to that little chore." She crawled close to Sarah Lynn and managed to make her take three swallows.

Two other men came running through the chaparral presently, with young Bill Dana following. They set to work instantly under Gunnar's directions and that speeded up the affair tremendously; Kit could see, but she was just the acme of the confusion again and again. "Gunnar . . ."

Her mother, her beauty deepened and clarified by draining grief, hung over her in an agony of tenderness. "Yes, darling! What is it, darling? What are you trying to say? Tell Me!"

"Tell me," the nurse said capably, taking her place. "Yes, Gunnar, I understand," she said slowly and clearly. "You want to see Gunnar?"

The head, held rigidly in a frame, could not move, but the eyes rolled wildly in negation. "No, no, no!"

She made a great effort. "Tell him—tell him—"

"Yes. I understand. What shall I tell him?"

"Don't come in here . . . Don't come in here . . . Go away!"

"All right, dearie, I'll tell him now. Come to sleep again." Miss Burke straightened up. She was young enough and gallant enough to revel in the drama of the case and she thought that particular phase of delirium pretty sad. She followed Mrs. Dana out into the hall. "Of course that doesn't mean a thing," she was beginning briskly when the mother interrupted.

"Mr. Thorwald is downstairs?"

"Goodness, yes! always. I don't know when he eats or sleeps. He—"

"Then, will you kindly go down and tell him exactly what my daughter has just said?"

The nurse hesitated. "But, you understand that she is delirious, Mrs. Dana? It doesn't mean—"

The large and lovely lady drew herself to her full imposing height. "You will be good enough to do as I ask, Miss Burke. Tell him exactly what she said, and without comment," she said evenly.

Miss Burke descended the elevator and ran down three flights of wooden stairs on her heels, calling out, "What is this? This is the scene!" she told herself, as she told the Norwegian ace exactly what she pleased. She found him as usual walking up and down the long hall.

"A change?" he demanded in a queer, spent voice.

"No. We weren't expecting any change, you know. She is certainly no worse."

"She—she asked for me?"

"Well, not exactly, asked, but she talks about you a lot. I mean, she's under opiates all the time, but she keeps murmuring your name."

"When—when can I see her?"

"Well, not just yet. They seem to think it isn't wise. The shock—"

"You will tell me when I can see her?"

"I'll tell you." She put her well-groomed hand for an instant on his arm. "It's a promise. But in the meantime, you know, a little eating and sleeping—"

(To Be Continued)

When he bent over her, murmuring, she pointed an accusing finger. Her hoarse voice said, packed with scorn, "Keep away from me drunken fool!"

Once again, Sarah Lynn Dana, social registerite, member of the exclusive suburb of Danavale, became news, furnishing hectic headlines in San Jose and San Francisco papers for many days.

She had flown with the notorious Kitty Medill, famous stunt-flier and moving picture double for dangerous scenes, who was making a first hop after being grounded by the Department of Commerce for reckless flying; she was lost; she was found, and found by Gunnar Thorwald, Norwegian ace, her fiance; she would live; she would live, but she would never walk again.

## Union Of Small Nations

### Idea Of Queen Wilhelmina Is Not For Military Alliance

King Leopold of Belgium has endorsed a suggestion by Queen Wilhelmina of the Netherlands that the smaller European nations endeavor by consultation to reach "an economic and moral understanding." "Why should not the small powers," he asked, "with the European Union more than 100,000,000 people, come together to seek a durable and effective harmony of thoughts and desires in the struggle against the great moral and material distress of our era?"

That makes sense. Singly these small states are helpless; united they could wield an enormous moral force. They are small in population, but some of them represent perhaps mankind's greatest progress in the arts of civilized life and the loss of any one would be of incalculable injury to the world. Such nations as Norway, Sweden, Denmark, Holland, Belgium, Switzerland are to be reckoned not by size, not in wealth or colonies or material things, but in terms of their past and present service to their own people and the world.

King Leopold and Queen Wilhelmina have in mind, of course, nothing in the way of a military alliance. Nevertheless such an informal association as they suggest would be a power for peace and another factor against war of which the dictatorships would have to take note. World opinion is an intangible thing, but none the less a thing even dictators must take into account, no matter what they may say to the contrary. —Ottawa Journal.

## Holding The Empire

### The Crown As A Symbol Uniting The Peoples Of The Dominions

What holds together the world's greatest Empire? A community of race, language, law and custom? Yes, to some extent; but, more than these, it is the navy and the Crown. The navy gives to Australia and India, Singapore and Cape Town, Canada and Kenya, no less than to England and Wales, common assurance that their shores, in time of war, will be protected from invaders, that their sons and daughters will be maintained. Simply, not one of the Dominions could support a great navy. Collectively, with Great Britain, they are defended by the world's biggest navy.

As for the Crown, the empire would not tolerate a dictator, and it does not ask of its Sovereign that he be an orator, a warrior, a genius, or even a statesman. It asks only that he be a good, honest, upright, honorable gentleman, dignified and gracious, above suspicion or reproach. For the Crown is not so much an instrument of government as it is a symbol of the unity of the Empire. —Chicago Daily News.

## Regulations Outlined

### Pamphlet Issued By British Ministry

#### On Imperial War Pensions

A pamphlet has been issued by the British ministry of pensions, outlining legislation and regulations governing pensions and treatment for those who served in the Imperial forces during the Great War.

The pamphlet bears the title, "Notes on War Pensions," and describes concisely the principles and procedure followed in the United Kingdom. These apply equally to all other countries as the aim of the British ministry is that ex-Imperial.

Wherever they reside, shall receive the full benefits of Great War pensions legislation to which they would be entitled had they lived in Great Britain.

Copies of the pamphlet are available to interested ex-servicemen in Canada through the provincial commands and branches of veterans' organizations and the district offices of the department of pensions and national health.

## Uncharted Land

### Uncovered Areas In United States Estimated As 508,000,000

The new official master map of the United States now shows 508,000,000 acres of public domain still unexplored after 15 years.

It may be many years, if ever, before government map makers finally can portray the outlines of a finished nation, officials said.

They estimated there were 127,000,000 uncharted acres in continental United States and 376,000,000 in Alaska.

Government control over the cotton industry has killed Tokyo's cotton exchange, established 22 years ago.

The leaves of the coffee plant, instead of the bean, are brewed in western Sumatra.

## Firestone SAFETY PROVED AGAIN IN INDIANAPOLIS SPEEDWAY RACE!

Firestone Tires Have Been The  
CHOICE OF THE WINNING DRIVERS  
FOR 20 CONSECUTIVE YEARS!

As a direct result of their experience gained on the speedways of the world, Firestone drivers now offer you sensational new tires and tires. Built with the new Safety-Lock cords and a new and advanced method of Gun-Dipping, this new tire is 35% stronger. The new Gears are treated with thousands of sharp-edge angles, is a marvel for long mileage, non-kid safety, and for sure, quick stops. Drive in today to your nearest Firestone Dealer and put on Chassis tires—especially tires that protect on the speedway for your safety on the highway.

### GOOD TALK MAKES YOU FASCINATING COMPANY

#### Build a Colorful Vocabulary

Tom's a popular chap. But he'd trade the swankiest social engagement for a date with Marjorie. "Goodness!" She knows how a vivid vocabulary gives zest and color to everyday talk. And throw in word-magic, too, by taking easy tips like these: "Open your eyes wide; open your eyes open for bright new words and phrases in newspapers, advertisements, other people's conversations—think of words that give you pleasure; for worn-out expressions like 'tired as the time of my life', 'no sooner born than dead', 'third rate car', 'more fun than six circus', 'done like a stroke of lightning'.

Distinguish between tiresome slang like "Can you tell me where I am?" and vivid words that have punch and pep such as "gumption", "hubbabub", "hokum".

On page, book gives dozens of ways to widen your vocabulary, talk your way into new opportunities, good times.

Send 10¢ in coins for your copy of "How To Improve Your Vocabulary" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave., E. Winnipeg.

The following booklets are also available at 15¢ in coins each:

170—"How To" Travel on Little Money.

168—"Etiquette: The Correct Thing To Do".

166—"Philosophy: A Guide to Happiness".

154—"Etiquette For Young Modern Girls".

146—"Home Course in New Ballroom Dances".

The ancient Schatze bar in Rome has been restored, and for the first time since ancient Roman life is being used for Senate sessions.

When the highest hotel in England and Wales was opened recently at Windgather, Kettleshulme, near Manchester, T. H. Leonard, vice-president of the National Youth Hostels' Association, revealed that 282 hostels, embracing 9,700 beds, had sprung up in eight years. The movement had attracted 80,000 members, and last year 536,000 bed nights had been registered.

Examinations for drivers' licenses made in the daylight hours are most popular among drivers who drive in the daytime.

Because daylight conditions differ so much from those after dark, the Journal of the American Medical Association recommends special training of motorists at night. It points out that night driving involves a different technique because of the difference in visibility and in the reactions of motorists.

The ancient Schatze bar in Rome has been restored, and for the first time since ancient Roman life is being used for Senate sessions.

When the highest hotel in England and Wales was opened recently at Windgather, Kettleshulme, near Manchester, T. H. Leonard, vice-president of the National Youth Hostels' Association, revealed that 282 hostels, embracing 9,700 beds, had sprung up in eight years. The movement had attracted 80,000 members, and last year 536,000 bed nights had been registered.

Noting gives a man quite the same sort of disappointment as to discover the car ahead going through those weird gyrations wasn't driven by a woman after all, states the Brandon Sun.

## WANTED, A BOY

Wanted—

A boy who stands straight, sits straight and talks straight;

A boy who listens carefully when spoken to; who asks questions when he does not understand, and does not ask questions about things that are none of his business;

A boy whose finger nails are not in mourning, whose ears are clean, whose shoes are polished, whose clothes are brushed, whose hair is combed, and whose teeth are well cared for;

A boy who moves quickly and makes as little noise about it as possible;

A boy who whistles in the street, but not where he ought to keep quiet;

A boy who looks cheerful, is a smile for everybody and never sulks;

A boy who is polite to every man and respectful to every woman or girl;

A boy who does not smoke cigarettes, and has no desire to learn how;

A boy who never bullies other boys, nor allows other boys to bully him;

A boy who, when he does not know a thing, says "I do not know," when he has made a mistake says "I'm sorry," and when requested to do a thing immediately says "I'll try";

A boy who looks you right in the eyes and tells the truth every time;

A boy who would rather lose his job or be expelled from school than tell a lie or be a cad;

A boy who is perfectly at ease in the company of respectable girls;

A boy who is not sorry for himself, and not forever thinking and talking about himself;

A boy who is friendly with his mother, and more intimate with her than anyone else;

A boy who makes you feel good when he is around;

A boy who is not a goody-goody, a prig or a little Pharisee, but just happy, healthy and full of life;

A boy who is eager to read good wholesome books;

A boy who all other boys like.

This boy is wanted everywhere.

The family wants him, the office wants him, the boys and girls want him, and all creation wants him.

## LIQUOR IN EIGHT GLASSES

As witnessed by our reporter in a cafe one beautiful evening:

In glass, perfectly harmless.

One glass, if taken internally, causes slight dizziness.

Two glasses, more dizziness; often a little giddiness.

Three glasses, plenty giddiness; often a little fighting spirit.

Four glasses, either a fight or a dash for the door.

Five glasses, knees grow weak.

Six glasses, much weaker.

Seven glasses, some unable to stand up, but do some funny things lying down.

Eight glasses—Boy, ain't we got fun!—Ex.

According to the Fernie Free Press correspondent, there is a possibility that the Fernie city band will kind of lay off the Crows' Nest Pass Musical Festival for a couple of years in order that a few more bands may get in and take hold for a while. They claim there is no fun in winning all the time.

## AIRLINER CARRIES 100,000 PASSENGERS IN EIGHT YEARS

Already they are talking "veteran" airlines, according to a bulletin from Trans-Canada Air Lines, the Imperial Airways' airline "Hercules," which made her first trip from London to Paris in September, 1931, is being removed from the service. She has been taken off the London-Paris route and during the summer will fly between Croydon, the great London airport, and Le Touquet, the famous resort on the northern coast of France, before being replaced by a faster liner of the Prohibition class.

For nearly eight years the "Hercules" has flown the London-Paris route, covering one and a quarter million miles and carrying more than 100,000 passengers. In one year, 1935, there were only four days when she did not leave the ground and in that year travelled 240,000 miles.

The "Hercules" has never been involved in a serious accident and not a single passenger nor member of the crew has been injured. During the September crisis last year the airline

played an important part in the midnight evacuation of Prague and has been used on Empire routes for carrying Christmas mail and for special charter flights.

## CONSERVATION AREA CREATED IN NORTH

The largest of its conservation areas in Western Canada was established recently by Ducks Unlimited (Canada), international conservation organization, at Gordon, forty miles southeast of Fort McMurray, where arrangements have been made with the provincial government for the taking over of the area which comprises 410,000 acres, or 702 square miles, stretching eastward to the Alberta-Saskatchewan boundary.

The area will be administered by Lloyd Bunting, of The Pas, a civil engineer, who will be in charge, and Victor Solman, Toronto biologist, graduate of the University of Toronto.

A second northern conservation area, at McKay Lake, about fifty miles north of McMurray, will be established this week.

Aim in the two areas, as in others in Western Canada, will be to engineer conservation of water resources, fur and game, water fowl, bush and timber, with increasing of the duck and water game bird population as the ultimate objective.

These areas are the fifth and sixth that Ducks Unlimited have taken over in Alberta. The others are at Ministik Lake, southeast of Edmonton; at Many Islands Lake, southeastern Alberta; and at Norman and Smith ranches in southwestern Alberta.

## PLATINUM FOR PLATINUM BLONDES

Platinum blondes will now be able to have natural platinum fox furs to match if the breeding propensities of a female fox on a fur farm located in the vicinity of Chipman, New Brunswick, continues and the strain can be stabilized. Two platinum foxes were born in a litter of three. One of the two is of a bluish white color and the other is a light straw color. The third has the ordinary markings of a silver fox. Platinum foxes are a great rarity and very valuable.

## LADIES HAVE MORE ENDURANCE

Lying down requires the least energy. Sitting requires four per cent more energy than lying down. Standing requires twelve per cent more energy than lying down. Bending requires fifty-five per cent more energy than lying down. Stair climbing consumes fifteen times as much energy as actual walking. Men become fatigued more easily than women because of fifteen pounds of clothing they wear. Women now wear about one and a half pounds of clothing; are exposed to the sun's rays and are better physically and tire less easily.

## TRY OUR SOCIETY PRINTING

## NEWS FROM EDMONTON

(T. B. Windrose)

Edmonton, June 12.—With an election in prospect in Alberta with in the next few weeks, professional politicians and amateur straw-watchers are busy these days trying to figure out just how the electoral wind is going to blow.

Some members of the Social Credit machine in the present legislature have admitted frankly, although privately, that they expect the party's majority in the house to be wiped out at the polls. Some of them think that the party's only hope is an alliance with the C.C.F. It is obvious a forlorn hope in view of the fact that the C.C.F. itself hopes to form the next provincial government in the province and in the Dominion house of commons at the session just ended, wiped its hands clean of the Social Credit theories of money.

It was reported reliably, from inside the government mill, that the Social Credit party's master minds see only 17 seats which they feel fairly confident of winning and they are prepared to be disillusioned about some of those.

Alberta now has an excellent grain crop in prospect and there are hopes that world market prices will rise far above the Dominion government's guaranteed price. In any ordinary political setup that would be helpful to the party in power, but in Alberta it may prove to be the death-knell for the present government, because the Social Credit always has been principally to people who have nothing or have no hope of bettering themselves.

One strong section of private members believes that the party has a heavy liability in the unpopularity of Premier Aberhart himself with many people. (That unpopularity was increased by some of his actions during the royal visit June 2nd and Edmonton movie-goers booted him last Saturday when news-films of Their Majesties' Edmonton visit included him.)

It is problematical whether W. D. Herridge, brother-in-law of R. B. Bennett and leader of the "New Democracy" party which he is trying to organize, has been or will be enlisted for provincial assistance. Although Aberhart denied flatly on May 25 that Herridge had been given any kind of job, "in a legal or other capacity" by the Alberta government, it was revealed by official records last week that Herridge's Ottawa law firm had been retained by the Alberta attorney-general's department (and Aberhart is the attorney-general) to represent the province in a campaign to have the federal board of transport reduce the freight rates on Alberta oil toward the east.

More than five weeks after Herridge's firm had started the job (as revealed later) Aberhart said that "there is no foundation to the report" that "New Democracy" organizer had been retained by the Alberta government in any way. He had nothing to say about it when the truth became known.

## RED CROSS SOCIETY TENDERS PRESS THANKS

Toronto, June 6, 1939.

To the Editor:

At the annual meeting of the Central Council of the Canadian Red Cross Society, held in Toronto a week or so ago, a resolution was unanimously passed thanking the newspapers of Canada for the splendid voluntary services which they had rendered to the people of this country during the past year, because of the whole-hearted support given through their columns to the work of the Canadian Red Cross Society.

We are taking this means of passing this resolution on to you, and of thanking you individually for the help you have always so cordially accorded.

Yours faithfully,

Fred W. Routley, M.D.,  
National Commissioner.

## NORTH AMERICA'S LARGEST RAIL SYSTEM

Montreal, June 8.—The Canadian National Railways is the largest railway system on the North American continent, comprising more than 23,000 miles of line and serving every important Canadian city and seaport.

Apart from the actual operation of passenger, freight and express services, the Canadian National provides many other types of transport, communication and general facilities for travelers, including a chain of modern hotels and summer resorts; telegraph communications, which through exclusive Western Union connections, give worldwide service; a steamship service to Bermuda, the West Indies and British Guiana; and to Alaska from Vancouver and other British Columbia ports.

## ILLEGIBLE SIGNATURES

If there is one petty annoyance more than another in the ordinary office humdrum, it is to get a letter or document with somebody's signature attached which nobody in the office is able to decipher. If the person in question has a title, occupying some position in a company or organization, it is possible to address him in that capacity, but that does not solve the question of the name of the man to whom an answer must be sent.

Where there is no official position, driven to a last resort, clipping off the signature and pasting it on the answering letter may be one way out, but it simply shifts the burden on the post office, and in any event is an abominable waste of time and patience.

While appreciating the artistic ingenuity of devising a signature which is hard to copy, for perfectly obvious reasons, legibility should not be sacrificed in the process.

Whatever else a man may write, says the Halifax Chronicle, he at least ought to be able to write his own name so that it can be read, and if this is not possible, as is the case with some of these glorious hieroglyphics which suffice for a signature, then, in fairness to the man who has to read it at the other end, it might, at least, be typed below the apostrophe of his name.

At the annual meeting of the Canadian Life Insurance Officers' Association, held in Toronto, the following officers were elected: president, A. P. Earle, president of Montreal Life Insurance Co., Montreal; vice-president, N. J. Lander, managing director of The Continental Life Insurance Company, Toronto; second vice-president, G. W. Bourke, actuary of Sun Life Assurance Company of Canada, Montreal; honorary treasurer, J. G. Parker, general manager of The Imperial Life Assurance Company of Canada, Toronto. A. N. Mitchell, president of The Canada Life Assurance Company, Toronto, is past president.

**Getting Back to Earth**  
"We had a wonderful trip!" enthused the motorist. "We saw snow-covered summits leaping toward the cerulean heavens; foaming torrents raging through the bottoms of shadowy canyons; we looked down from beetling crags into the depths of limpid lakes; traversed sylvan glades shot with flashes of golden sunlight; we—"

"How many miles to the gallon did you get?"—Tit-Bits.

Opportunity for Alberta taxpayers to talk "relief." Hon. Dr. W. W. Cross has gone to Ottawa to simply talk that important subject.

## THE PASS EIGHTEEN YEARS AGO

(The Blairstown Enterprise, 1921)  
June 23.—Tenders are being called for the building of a new road over the Frank Slide.

Mrs. R. Lynch-Staunton and daughter, of Lundbreck, are visiting in Spokane.

A woman and four children were burned to death at Innisfail this week when their home was destroyed by fire.

The Calgary Exhibition was billed for July 1st.

Mr. and Mrs. John Kennisis, of Cowley, were holidaying at the Pacific coast.

Walter Knight sold his residence property at Lundbreck this week to James F. Smith. Mr. Knight and family have moved to Calgary to reside.

P. Burns & Co. have purchased the Alexandra hotel block at Lethbridge for a consideration of around \$100,000.

J. P. O'Neill this week received word of the death of his father at Peterboro, Ontario.

June 30.—Ritchie-Patterson Co., of Lethbridge, were this week appointed auditors for the town of Blairstown and Blairstown school district at a fee of \$25.

The application of Miss M. E. Davis, of Truro, Nova Scotia, as vice-principal of the Blairstown school, was accepted by the board, the salary to be \$1,700. Other salaries were set as follows: the principal \$2,700, one at \$1,400, three at \$1,300, and one at \$1,200. The resignation of Mrs. Stubbings was accepted.

Alex. M. Morrison was this week nominated Liberal candidate for the Rocky Mountain provincial constituency. He will oppose Dr. Brett, Conservative, and Frank Wheatley, Labor.

Dominic Campo has opened a shoe-shine parlor at the Alberta hotel.

Tom Beck, of Fernie, has accepted the position as clerk at the Cosmopolitan hotel.

The marriage of Miss Nellie McVey to Mr. Gordon Evans, both of Blairstown, took place at the Central Union church this afternoon.

Murray Saunders, of Calgary, was this week elected president of the Alberta Baptists.

## LOCAL AND GENERAL ITEMS

The girl whose face is her fortune is bound to go into the hands of some receiver.

A university in Washington, in addition to all other course, is adding a golf course.

The British Columbia Grand Lodge of Oddfellows are in annual convention at Victoria this week.

Georgia Hodgson, of Nelson, was found guilty of perjury and sentenced to serve eight months in the Oakalla penitentiary.

Ed. Lieden is opening up in the grocery business at Coleman in the store until very recently occupied by J. M. Rushton.

Mrs. J. M. Windsor and two daughters left Cranbrook recently for Ontario, where they will visit relatives for two weeks or so.

People of Okotoks-High River are still looking forward to the promised dividend, but—the promised visit of Aberhart to that riding. They are not forgetting, and never will forget that illegally forfeited, or withheld, \$200.

A Coleman girl visitor on a farm near Cowley, remarked to the farmer: "Oh, what a funny looking cow, and why hasn't it any horns?"

"There are many reasons," answered the farmer, "why some cows haven't horns. Some are born without horns, and don't have any until the late years of their life. Others are dehorned, while still other breeds aren't supposed to have horns at all. So you see there are many reasons. But the chief reason that this particular critter doesn't have horns is that it isn't a cow at all. It's a horse!"

## LOCAL AND GENERAL ITEMS

Twenty years ago on June 5th Miss Doris Stewart and Mr. Jack Pilfold were married.

Their Majesties the King and Queen will be welcomed at S. John's, Newfoundland, tomorrow.

A number of friends tendered a birthday party to Mrs. William Oakes at her home last night.

Mayor Williams and Councillor D. Ennis were in Lethbridge this week, attending the municipalities convention.

It was planned to stage a plowing match near Okotoks tomorrow, Saturday. Better make it a swimming match!

Mrs. Lowrey, of Beaver Mines, received word this week of the death of her mother, aged 94, at Victoria, British Columbia.

James Whyte, of the Lethbridge Herald staff, assisted at The Enterprise for three days this week, reviewing Rod McLeod.

Edmonton is reported to have the largest per capita bonded debt of any Canadian city, \$230, while Winnipeg has the lowest, \$42.79.

Two and a half tons of heavy gauge copper transmission wire was stolen recently from the East Kootenay Power & Light Company near Cranbrook.

The King was handed a fountain pen with no ink in it to sign the Golden Book at Sherbrooke, Quebec. They know nothing of dividends down there.

F. Walter Slade, of Kimberley, has been re-elected state deputy of the Knights of Columbus for British Columbia. Jack Connick, of Fernie, is state secretary.

Seven million railroad ties will be received on the Canadian National Railways during 1939. If placed end to end, they would make a continuous line 10,000 miles long.

Nineteen years ago, over wireless telephone, Signal Hill, Newfoundland, talked to a ship 1200 miles away. During the same year, trans-Atlantic wireless messages were exchanged.

Mr. and Mrs. Henry Zak, senior; Mr. and Mrs. Henry Zak, junior, and Joseph Zak, attended the wedding at Canal Flats recently of Miss Frances Nemrava and Mr. Jacob Wernitzing.

An order bringing youths 19 and 20 years old under the provisions of the adult minimum wage regulations was made effective by the Alberta board of industrial relations this week. Certain exemptions are allowed.

George Moore, of Calgary, was elected grand master of the Grand Lodge of Alberta, A. F. & A. M., at the Grand Lodge convention in Calgary this week. S. J. Harris, of the Peace River district, was elected deputy grand master; G. Ellis, of Calgary, senior grand warden, and F. P. Galbraith, of Red Deer, junior grand warden.

G. E. Cruickshank and P. Haggerty, of Hillcrest, and W. H. Chappell and J. R. McLeod, of Blairstown, returned last evening from Calgary where they attended the sessions of the Grand Lodge of Alberta, A. F. & A. M. Others from this district in attendance were J. O. C. McDonald, R. F. Barnes and S. C. Short, of Coleman.

Albert Edward Knowles, 55, who passed away suddenly at Coleman on Thursday of last week, was born in Hartlepool, Yorkshire, England, and came to Canada thirty years ago. By his first marriage to Ethel Abelson, in Hartlepool, who died in Coleman some eighteen years ago, there were two children; Jeffrey, still living, and Gladys, who met tragic death at Lundbreck Falls in 1929. By his second marriage to Miss Clapham, there are two daughters, Violet and Pearl, living with their mother in Coleman. Funeral service was held on Sunday afternoon, with Capt. Hewitt, of the Salvation Army, in charge. The remains were laid to rest in the Union cemetery.

## CALGARY EXHIBITION AND STAMPEDE, JULY 10 TO 15

Arrangements are progressing very satisfactorily for the 54th Calgary Exhibition and Stampede, to be held July 10th to 15th, 1939. There is every indication that there will be a large entry in the several departments of the exhibition. New stabling accommodation for 198 horses is being provided with the hope that adequate stable accommodation will be available for this year's entries. Included in this accommodation is 96 boxes for race horses. Last year, owing to the lack of space, a large number of race horses had to be given temporary accommodation.

The opening feature, the Stampede Parade, will be of more than ordinary interest this year, as there is to be a "Pageant of Empire" in which there will be fourteen floats, each representing a different part of the Empire—including India, British West Indies, Newfoundland, Scotland, Canada, Hong Kong, Egypt, South Africa, England, Gibraltar, Ireland, Australia, Wales, New Zealand and the British Empire. The floats are being sponsored by the following firms: Calgary Brewing & Malting Co. Ltd.; Safeway Stores, Ltd.; Ontario Laundry Ltd.; Beavers' Cafe; Automobile Dealers' Assn.; Canadian Western Natural Gas, Light, Heat & Power Co. Ltd.; The Calgary Herald; Calgary Power Co. Ltd.; Hudson's Bay Company; Union Milk Co. Ltd.; Jenkins' Grocereria Ltd.; City of Calgary; Canadian Bakeries Ltd.; Hook Signs Limited, and the Calgary Exhibition and Stampede. The live stock section, which was inaugurated last year, will be improved and will give the thousands who see the parade an indication of the high quality live stock produced in Alberta.

There will be seven days of running races, commencing the Saturday prior to Exhibition week.

The Stampede will again draw contestants and patrons from all over the North American continent and Mr. J. B. Cross, chairman of the Stampede committee, can assure patrons that the Calgary Stampede will again live up to its reputation of being one of Canada's most thrilling portrayals of western sport. The final prizes in the stampede race have been increased.

An outstanding programme has been engaged for the grandstand platform, each evening and the Friday morning live stock review will again feature for young people and their parents.

The Calgary Exhibition and Stampede annually put on the best fireworks programme to be seen anywhere in Canada. Following the policy of last year, there will be magnificently fireworks programme on Monday and Saturday evenings.

The Cowboy Ball will take place Friday evening on Ninth Avenue and Tuesday, Wednesday and Thursday mornings upstream street displays will be featured.

Pioneers will again meet at their log cabin headquarters on the exhibition grounds beside the Indian village.

Patrons, numbering 223,425, attended the last Calgary Exhibition and Stampede, and President J. C. Yule expects that it will be possible to surpass this in 1939. This will be known as British Empire year in honor of the Canadian visit of Their Majesties, King George VI. and Queen Elizabeth.

Owing to the improvement in roads during the past year or two, patrons can come from greater distances and especially from United States points. There is now a hard-surfaced, dustless road entering Canada from Babb and proceeding by Waterton Lakes, Pincher Creek, Macleod and Calgary, and then on to Banff and Lake Louise, Canada's famous mountain playground. The Lake Louise Highline is now open for about 35 miles and provides a marvelous addition to the beautiful highways in the Canadian Rockies.

Special passenger rates will be in force on railways and bus lines, and room reservations may be made at Calgary hotels or at the Accommodation Office.

## HERE AND THERE

Joe says: "To Helmut corned beef."

Fort Arthur's hockey team is to have artificial ice.

Each visitor to the New York World's Fair is expected to spend \$56.

This weather simply reminds us of the old adage: "Happy the rain that the bride falls in."

A Boston doctor has invented a machine for skinning humans. But, then, we already had the stock market ket.

A moth measuring four and a half inches from wing tip to wing tip, was captured at Drumheller recently.

The five-cent piece called the nickel actually contains more copper than the one-cent piece that is called the copper.

That song introduced lately, "Oh, for a night with the ladies!" has been recommended as a new Social Credit theme song. Not so bad at that.

A quantity of powder caused a terrific explosion in a Blairstown home on Saturday night. The husband returned home with it on his shoulder.

That was a kind gesture of The Albertan cutting short the Bible Institute dialogue between Cyril Hutchinson and C. R. Pearce for Aberhart's benefit.

Twenty-five years ago the liner Empress of Ireland was struck by the collier Storstad and sank in the St. Lawrence river with a loss of around one thousand lives.

It required twenty-two years for 20,000 men to build the Taj Mahal at Agra, India. It is the tomb of Mumtaz Mahal, favorite wife of Shah Jahan, the Great Mogul of Delhi.

After all Aberhart has done to clamp down on the press in Alberta, even to the extent of threatening to put them out of business if they did not publish matter to his liking, his government today are just begging for free publicity.

A representative body of master plumbers called on a humorous weekly newspaper to present a protest against the plumber jokes which the paper constantly printed. It is rumored that one of the delegates had to go back for the protest.

New fishing regulations for Canada's national parks, by which licenses were to be exacted, \$5 for non-residents and \$1 for residents, have been postponed till next year. Many protests were registered against the new legislation.

Weather records for the summer of 1816 were very similar to the records so far this year; snow in March and April, heavy frost in May, frost and snow in June; crops very backward up to late in June. Eight inches of snow fell in October.

Although the population of the United States and Canada has increased only by 17 per cent in the past fifteen years, the circulation of daily newspapers has jumped 26 per cent, and today's circulation amounts to 41,500,000 daily and 30,900,000 for Sunday circulation.

She was a painter in water colors, and was very proud of her work; also her complexion was the remark of her acquaintances. At a dinner party one night she sat next to a shy, awkward young man, who sought valiantly to find something to say. She tried to open conversation with him. With becoming modesty she said: "I expect you have heard that I paint?" "Yes," he replied, gallantly, "looking at her face. "But I don't believe it!"

Onion Booth at the entrance to the C. P. station. Reserved seat reservations may also be made in advance at the Exhibition Office.

The fish in South Alberta's streams are proving themselves a patient lot.

There are more than 42,000,000 automobiles in use throughout the world.

Wonder where in the Bible is this Great Trinity referred to: Herridge, Buck and Aberhart.

Forest prevention advertising was paid for by former governments. Now the press is expected to finance it.

The government has a new problem on their hands right now—getting a just price for the Lethbridge traffic jam.

The New Glasgow Free Lance turned out a special fifty-page edition commemorating the Royal visit on June 7th.

It is estimated that no less than five million people saw the King and Queen on their visit to the United States.

That day of the Royal visit to Newfoundland, June 17th, has been selected by proclamation for the celebration of the King's birthday throughout the country.

The high council of the Salvation Army will be summoned August 15th to elect a general to succeed Evangeline Booth. General Booth, 78, retires October 31st.

One of the biggest theatres in Scotland became greatly overcrowded when a free show was announced. The attendance at the theatre had been very small for a considerable time.

The Athabasca Echo decided last week to be a little kind-hearted and offered their entire first dividend payment of \$25 as a wager that the Alberta provincial election will be sprung on Monday, August 21st. Well, in our opinion, that's going a little too far; they may want that money some day!

Appointment of six superintendents of school divisions was announced by Premier Aberhart during the week. They are: H. T. Sparby, M.A., B.Sc.; Hugh Robert Ross, G. Merle, Robert R. Warren, B.A.; James White, B.Sc., and Carl B. Johnson, B.Sc. All are fully qualified and experienced educationists.

Examinations for drivers' licenses are made in the daylight. Most motorists learn to drive in the daylight. All these years I have been getting ready to do something worth while. I've been waiting for "Normal Conditions" to come again; I've been waiting for the stock market to improve and waiting for the depression to end; waiting and dawdling and dreaming, until the day is almost spent and the twilight close at hand, without knowing that all these years conditions have been normal.

A pinch of salt is greatly improved by adding a glass of beer to it.

Hungarian partridge are being imported from England to New Brunswick.

Clever men don't always make the best husbands, simply because they are seldom husbands.

With weather such as we have had the past ten days or so lasting all the season, there would be no need of fish protection laws.

Winnifred says she carries her hair in her stocking because her father told her to put it where it would draw interest.

Mother used to put on more clothes when she dressed for bed than her daughter now does when she dresses to go out.

A Scotchman who had been gumming it all his life has married a girl named Tooth. He says that's one way of getting them.

That jellied gumbo served the King and Queen at the World's Fair luncheon at New York was not of the Alberta variety of gumbo, which does not require artificial jelling.

About three thousand male dandies and others in amusement establishments must take up jobs in factories, workshops and offices, the German labor office has ruled.

The French government has disclosed that it has spent approximately \$20,000,000 caring for refugees of the Spanish civil war, and that the future cost might be twice that amount.

Joe says: "Yes, the smallest things seem to upset my wife. The other day she was doing a crossword puzzle, and asked me what a female sheep was. I said 'ewe', and she burst into tears."

A report issued by the International Institute of Agriculture, in Rome, on May 10th, states that Canada has been the only major wheat-growing country in the world which has succeeded in substantially increasing wheat exports this season—shipping a total of 102,000,000 bushels, an increase of 38,000,000 bushels over last season.

For the past ten years I've been planning and hoping and thinking and dreaming and loitering and waiting. All these years I have been getting ready to do something worth while. I've been waiting for "Normal Conditions" to come again; I've been waiting for the stock market to improve and waiting for the depression to end; waiting and dawdling and dreaming, until the day is almost spent and the twilight close at hand, without knowing that all these years conditions have been normal.

## Open Sesame To Sales

Despite the many illustrations of its efficacy that could be quoted with little effort, the value and power of advertising is not yet fully appreciated, even by many of those who stand to gain the most by it.

It has been said that if you have something the world wants, the world will beat a pathway to your door, or words to that effect; but the corollary to this—a most important one and one that is sometimes overlooked or minimized, is the necessity of letting the world know that you have something it wants, before it is possible to have the well-trodden path to the proverbial doorway.

In other words, advertising is the open sesame to sales of goods and services. The world may thirst and hunger for something you have to offer, but the world will continue to lack that something if you neglect to let the world know that you have it.

Apart from the immediate value of advertising, the cumulative results that it brings is also often overlooked or minimized. Advertising brings demand. Demand spells sales. Sales create further demand and volume of production, and volume means reduction in costs, lower selling prices and improved products. Lowered prices and better goods widen the range of demand and this, in turn, stimulates additional sales.

## A Remarkable Example

A shining example of the value of advertising as a stimulus to business is afforded by the automobile industry.

Less than 35 years ago Walter Chrysler paid \$5,000 for his first automobile, a crude vehicle that sometimes ran and sometimes did not; a machine which had to be started by a hand crank, whose oil lamps had to be lighted with matches and whose brakes had to be operated by hand.

But consider the automobile of today and its cost. For one-fifth of the sum paid by Mr. Chrysler for his first machine, or even less, the present day purchaser can secure an infinitely better product, a machine that can depend upon to do its work efficiently under almost any conditions and a machine comprising so many refinements and improvements when compared with the pioneer models, that it would take a column or more just to list them.

And this result, an infinitely superior vehicle at a fraction of the selling price in the earlier days of the industry, is largely the result of advertising. What happened in the automobile industry was something like this, to quote Wright A. Patterson, an authority on the subject: "Advertising created increased demand. Demand was responsible for increased employment. Increased employment brought augmented purchasing power and this in turn stimulated further demand," aided and abetted by continued and additional advertising.

Thus on a foundation of advertising was built up one of the greatest industries on the continent, which, in its turn as it grew, fostered and developed many other subsidiary industries, creating more pay rolls and more potential and actual consumers of motor cars.

The same process and the same results are equally applicable to many other manufacturing industries, such as radio, refrigeration and a host of other smaller and less expensive commodities which are to be found in almost every household throughout the country. Their names are legion but they would not be in extensive use-to-day and would not have built up flourishing industries had it not been for advertising, for without advertising no one would have known about them.

## Discarded Theory

Now are the benefits of advertising confined to manufacturers and consumers of manufactured products. They are of equal advantage to the distributing services of the country. The grocer, the butcher, the baker and the candlestick maker are also beneficiaries of advertising, as well as their customers, if they only realized it.

The country merchant who makes use of his available local advertising facilities and as a result creates volume of sales for his goods or his services is enabled to reduce his overhead costs and is thus able to cheapen the product or the service which he offers, giving him a distinct advantage over his non-advertising competitor. As a result not only does the advertising merchant benefit but his customers are likewise beneficiaries, since they are able to buy a commodity or a service at less cost, or a better article or a better service at the same price. Either way, both benefit.

When this self-evident truth becomes better understood and more readily appreciated the false doctrine that is sometimes circulated in the towns and on the farms that advertising is an "economic waste", paid for by the consumers, will be discredited, as it deserves to be.

## Small But Powerful

## Courtesy Is Very Useful Every Morning—The Day

I am a little thing with a big meaning. I help everybody. I unlock doors, open hearts dispel prejudice. I create friendship and good-will. I inspire respect and admiration. Everybody loves me. I bore no one. I violate no law. I cost nothing. Many have praised me, none have ever condemned me. I am pleasing to those of high and low degree. I am useful every moment of the day. I am courtesy—Leamington Post and News.

## Indians Had Remedies

## Acquired Comprehensive Knowledge Of Medicinal Properties Of Herbs

Dr. J. J. Heagerty, director of Public Health Services of Canada, in the first of his series of addresses on "The Romance of Medicine in Canada" has given interesting data on Indian life. In this address, given in full in the Spring issue of "Health", the Ottawa authority says:

"The Indians were possessed of a comprehensive knowledge of the medicinal properties of the vegetable kingdom. They had remedies for each and every occasion. Their medicine man was only a concession to superstition and not the curator of their medical knowledge. Their system of medicine was an unwritten one that was handed down from generation to generation and, in spite of the manifold defects of such a system, was surprisingly complete."

An astronomer says the earth is speeding 180 miles a second on a journey. It will need 207,000,000 years to complete. It will have to do much better than that if it wants to leave its troubles behind.

Glass that may be bent, rolled and twisted is on the market. Thus at long last, the principle of the tooth-paste tube may be applied to the catsup bottle.

## Heraldic Symbols

COLUMBIA UNIVERSITY IN NEW YORK  
STYLIZED CROWN  
When King George and Queen Elizabeth visited Columbia University on Morningside Heights, New York, they set foot inside a college which despite 155 years of allegiance to the stars and stripes has retained a crown as one of its heraldic symbols.

Atop the flagpole at the university, which in the days when New York was a province of Great Britain, was called King's College, is set a substantial-looking gold-painted crown, and a crown is traced in white against the blue background of Columbia's flag.

It is a replica of the iron crown

## Prairie Pasture Management

## Cultivated Grasses Superior To Native Species For Maintaining Livestock

A certain amount of pasture is always needed on farms carrying live stock. The acreage required will depend on the number of stock, kind of pasture and climatic conditions, states F. M. MacIsaac, Dominion Experimental Station, Scott, Sask. When a native grass is used to maintain the pasture, it has, in many cases, been over-grazed during the past dry seasons. In many of these pastures, prairie sage (*Artemisia frigida*) has increased, thus reducing them to a low carrying capacity. Pasture investigations at the Scott Experimental Station have proved that cultivated grasses have a much higher carrying capacity than native species.

In 1934 and 1935, sixteen to eighteen milch cows were pastured on 150 acres of native grass. Each year the cattle were put on about the middle of May and taken off the third week in October. It was estimated that the average number of cattle would be the limit of the carrying capacity of the pasture. It averaged 16.5 cow days per acre per year for the two years. During the two years, 1937 and 1938, approximately the same number of milch cows with the addition of a few young cattle from time to time were pastured on 46 acres of cultivated grasses. This pasture consisted of three fields, namely, 22 acres of a mixture of western rye, crested wheat and alfalfa, 12 acres of bromegrass and 12 acres of crested wheat grass. Over the period of two seasons, it averaged 50 cow days per acre per year. A comparison of the figures shows that the cultivated grasses had a practical three times the carrying capacity of the native grasses. There was little climatic difference for the seasons compared.

It is advisable on the prairies to provide supplementary pasture in the hot part of the summer where irrigated or low meadows are not available. While sweet clover may be used to help this situation, a more dependable method is to sow sufficient acreage of oats in the spring for pasture during the hot period.

Women should stand up for their rights! At one time egg money was small enough to pass unnoticed into the maternal exchequer, but now that it amounts to something it is going more and more to buying chewing tobacco and pay taxes, says the Farmer's Advocate.

## Showed Decided Difference

## New Towns In Cheek When Children Saw Their Majesties

Perhaps nobody noticed it except the four or five adults in the Richardson Stadium who had long training in observing every last small detail of a very large event, but the pitch of the mighty cheering of ten thousand, five hundred young throats dropped a full octave or more immediately after the school children got the first sight of Their Majesties. Not only did the cheering drop in pitch, although its strength did not diminish, but it changed entirely in character.

There is no indicator of emotion more sensitive than the voice, and the only explanation of the change must be that the actual appearance of the King and Queen produced a very deep emotional effect on the great majority of the children present.

It has been taken for granted that it is important for school children to have every opportunity of seeing their King and Queen. The effect upon the children who were in the stadium seems to prove the point. Sporadic cheering started a short while after the children took their places. It was practically continuous from the time they were told to stand to the public address system that Their Majesties had arrived in Kingston and would appear before them in a few minutes. But it was typical, shrill, high-pitched children's cheering. It reached a tremendous crescendo as the first motor cycles of the police escort swept through the stadium gateway, but it was still the high-pitched, rather unpleasant variety.

Then the Royal car appeared and the Royal standard was broken out. There was a momentary hush, then the cheering resumed and gradually grew to tremendous volume in its pitch and quality. It was music now, like a great tempest organ pipe whose mighty tones rose and fell as the smooth rollers of a quiet sea. Something had occurred which the children will remember to the end of their days.—Kingston Whig-Standard.

## Some Cooking Hints

## Things One Should Know To Get The Best Results

When a cake is done it is a delicate brown, has shrunk slightly from the edge of the pan and when pressed lightly with the finger tips, springs back and leaves no mark on the surface.

For best results the ingredients for a cake—flour, eggs, and milk—should be at room temperature. Besides the shortening and sugar thoroughly and the result is a tender, moist cake.

Properly beaten egg whites for cakes just hold their shape. They are glossy and have a moist rather than a dull and dry appearance.

## Built In Record Time

## Construction Of 11,000-Ton Ship Was Speeded Up In Glasgow

In the record time of 28 weeks an 11,000-ton ship, measuring 530 feet long, has been built at Clydebank.

She is the New Zealand Line motor passenger liner Essex. Construction was speeded up to make way for naval tonnage.

Special apparatus will suck in 13,000 cubic feet of sea air every hour and distribute it among fruit for cooling and preservation. Apples, bananas and the gales they exude will be trapped, cooled and wafted through the holds to prevent fruit tainting.

Anthrax is not considered an important public health problem in the U.S. since less than 200 cases occur annually.

## BRITISH WILL HALT ANY AGGRESSION STATES HALIFAX

London.—Foreign Secretary Viscount Halifax told the "men who have it in their power to precipitate conflict" that any attempt at aggression in Europe would "meet with wide and resolute resistance."

Lord Halifax said he gave this warning lest "their judgment may mislead them as to the nature of the risk they are running and as to the purpose and temper of those against whose convictions they may be moved to act."

The foreign secretary made his statement in the house of lords, reviewing details of British efforts to win Soviet Russia and other nations into the Anglo-French front.

Europe is faced by complicated problems "which are only too likely to lead to war if roughly handled," he said.

He, however, did not share the views of "those who believed war is unavoidable, because he was convinced the prospect of certain resistance would deter any nation tempted to risk war."

"The day has gone by when the independence of European nations can be destroyed by unilateral action and it is clear that any attempt to do so will meet with wide and resolute resistance," he said.

"But provided that the independence of nations is recognized, His Majesty's government are not only willing but anxious to explore the whole problem of economic lebenstrau (living room), not only for Germany but all European nations."

Lord Halifax said he doubted an international conference at the present time offered any remedy because first mutual confidence must be established.

"It often has been said that no conference can succeed which has not been carefully prepared beforehand and if, it fails, it only makes a difficult situation worse," declared the foreign secretary.

"I am sure we are forced to admit there is great force in this consideration."

In this connection, Prime Minister Chamberlain a few moments earlier told the House of Commons that Germany's recent attitude on colonial and economic questions had placed further obstacles in the way of possible steps toward adjustment.

The prime minister reiterated his declaration Britain was willing to discuss the colonial question with Germany as soon as an atmosphere of mutual confidence is created, but said:

"I can only repeat my regret that declarations, whether official or otherwise, should be made in Germany which do nothing to assist in creating such an atmosphere."

## Deporting Polish Jews

**Bernie Has Admitted That Action Is Being Taken**

Berlin.—Friction between Berlin and Warsaw—mounting for months over the Danzig question—threatened to reach a new height as Germany roundly told Polish Jews for deportation and the Polish government was reported to have warned that retaliation might follow.

In Berlin, it was admitted action was being taken against Polish Jews. Jewish circles said groups were being taken to the border daily. Some Jews who lost their Polish passports under Poland's new citizenship regulations last fall were being taken to concentration camps, it was reported.

A Krakow, Poland, newspaper said 2,000 Jews had been brought to one Silesian border point and ordered to cross into Poland. Only about 80 reached Polish soil, the paper said.

The expulsion move appeared to be intended to spur all Polish Jews to find new homes. More than 10,000 Polish Jews are in Germany.

## Returning To Germany

**Cuba Would Not Permit Jewish Refugees To Land**

Havana.—The Cuban government refused a second time to give asylum to 907 German Jewish refugees cruising aboard the Hamburg-American liner St. Louis between United States and Cuba.

Efforts to reach a compromise broke down when a noon deadline passed without acceptance by refugee representatives of a Cuban plan to establish a temporary haven on the Isle of Pines.

The liner, St. Louis informed Tropical Radio she had set her course for Europe, bearing back to Germany with the 907 Jewish refugees.

## King's Birthday Honors

**Harry Oakes, Mining Man, Is Created A Baronet**

London.—Harry Oakes, the multimillionaire mining man who attacked Lake Shore gold mine in northern Ontario, was created a baronet in the King's birthday honors list.

Mr. Oakes, who now resides in Nassau, the Bahamas, and is a member of the house of representatives in that colony, was honored for his "public and philanthropic services."

He was one of the five new baronets in the list, which also created five peers, two privy councillors and 34 Knights Bachelor.

The honors list was published while the King was crossing from Canada into the United States and while his birthday was being observed officially in Great Britain, and included the name of three persons who helped organize the visit.

Sir Ronald Lindsay, ambassador in Washington, who met the King and Queen, and who made arrangements for Their Majesties' visit to Washington, was named Knight Grand Cross of the Order of the Bath.

Alan Frederick Lascelles, assistant private secretary to the King, who made preliminary arrangements for Their Majesties' North America tour, and George Stewart, the foreign office's chief press liaison officer who is a member of the King's suite, were respectively made Knight Commander of the Royal Victorian Order and Commander of the Royal Victorian Order.

Since 1919 no Canadian residents have accepted titles except during the years 1934 and 1935 when Rt. Hon. R. B. Bennett, then prime minister, recommended citizens of the Dominion for such honors. In 1919 the Ottawa House of Commons adopted a resolution asking that His Majesty give no more titles to Canadians.

John C. Fudger, one of the Newfoundland-born members of the Newfoundland commission of government, was raised to the knight hood.

In addition, the King created Sir Humphrey Walwyn, governor of Newfoundland, a Knight Commander of the Order of St. Michael and St. George. His previous knighthood was the K.S.C.I.

## Big Work Program

**Much To Be Done When Premier Returns To Ottawa**

Ottawa.—Prime Minister Mackenzie King and his cabinet colleagues face a heavy program of work when they come together again in Ottawa at the close of the royal visit. Nearly a score of appointments, to high posts, including nine senatorial appointments, are awaiting disposition, and there will be a great deal of organization work as a result of legislation passed at the session of parliament just closed.

There are three vacant seats in the House of Commons in Calgary, Westmount, and Esquimalt. Rt. Hon. R. B. Bennett, Kent, Ont., vacated by the death of Dr. J. W. Rutherford, and Jacques Cartier (Montreal) made vacant by the death of V. Mallette.

A three-man commission to administer Canada's penitentiary system is to be appointed, pursuant to legislation just passed, and a three-member defense purchasing board.

The office of parliamentary librarian has long been vacant through the death of Martin Burrell, and a new deputy minister of fisheries is to be appointed to succeed W. A. Found, who was superannuated.

The central mortgage bank must be organized, a royal commission be set up to examine the Pacific coast, and a committee of the new agricultural products marketing schemes carried out.

## Sharp Depreciation

**Chinese Dollar Is Worth Little In Canadian Equivalent**

Shanghai.—Sudden sharp depreciation of the Chinese national dollar almost completely stopped its use for foreign exchange purchases. The Chinese dollar was worth only 14 cents, Canadian equivalent.

Chinese-British banks controlling the \$46,000,000 Chinese-British currency stabilization fund refused further grants. Some businessmen believed that the control fund may have been exhausted, and that further stabilization funds have not been found.

## Wipe Out Arab Rebels

Jerusalem.—British troops overtook and almost wiped out a band of Arab rebels in the Kaliyah valley, four British soldiers and three Jewish policemen were ambushed and slain. Official reports first placed the Arab dead at 14 with scores wounded.

## Touching Incident

**Queen Elizabeth Talks To Mother Who Lost Three Sons In War**

Brantford, Ont.—A tear in her eye, Mrs. G. C. Livingston of Brantford, a widow mother who lost three sons in the Great War, was presented to the Queen. Her Majesty examined the cross she wore.

"If I had three more boys I'd want them to fight for you," Mrs. Livingston said.

The Queen visibly was touched.

She leaned forward and said in a low voice: "That's lovely of you."

## Two Surveyors Drown

**Canoe Capsized In Lake North Of The Pas**

The Pas, Man.—Clifford Cochrane and Jim Dewart drowned in Kississing lake, The Pas, Manitoba, of a snow party, were thrown into the lake when their canoe capsized.

It is believed the men were on their way back to camp with a supply of food when the canoe turned over. The bodies were recovered within a few hours. Kississing lake is 100 miles north of The Pas.

## JAPAN THREATENS ACTION AGAINST ALL INTERFERENCE

Shanghai.—A Japanese spokesman threatened "summary action," possibly including indefinite detention or the death penalty, against any foreign whose acts are considered dangerous to Japanese interests in the occupied areas of China.

Reliable quarters interpreted the statement as a new attempt by Japan to assume the rights of a belligerent while avoiding a declaration of war against China, which might stop war supplies from other countries.

The spokesman said an example of the threatening measures was the treatment given R. M. Tinkler, a British employee of a British-owned cotton mill in Tainan, Swatow. He died from head, foot, and abdominal wounds inflicted by Japanese who charged he had fired upon a Japanese officer and threatened several Japanese marines when they entered the mill to stop a fight among Chinese strikers and non-strikers.

(A London despatch said the British government took a "serious view" of the incident.)

Tokyo.—A foreign warship, "apparently a British cruiser," fired on a Japanese airliner east of Hong Kong, the Japanese news agency, Dorei, said.

The pilot said the plane escaped damage though 10 shots were fired and several shells exploded within 100 yards of it.

The Donon despatch was dated from Taihoku, Formosa, whence the aircraft had been bound for Tokyo by way of Swatow.

While "far outside British waters" and cruising at 5,000 feet altitude, the pilot was quoted as saying, a warship carrying a British flag and similar insignia painted on her sides suddenly swung her anti-aircraft guns into action.

After the first shot, the pilot began climbing and zig-zagging. He returned to Taihoku after escaping the shrapnel.

While some Chinese gunboats are known to be equipped with anti-aircraft guns, Japanese naval sources said none had been sighted in south China waters for many months.

## ROYAL SUBSTITUTES FOR THE KING AND QUEEN

Other members of the Royal Family have been performing the duties in England which usually fall to the King and Queen as Their Majesties are touring Canada and the United States, and this picture shows the Duke and Duchess of Kent when they visited the Royal Tournament at Olympia.

## DECORATIONS FOR THE KING

### The Royal Train

**Lack Of Formality Prevailed According To Interesting Side-light**

Niagara Falls, Ont.—Englishmen who comes for dinner in the jungles just to make appearances, may be shocked to know King George VI hasn't put on even a dinner coat on the royal train.

The King puts on uniforms and evening dress for banquets, receptions and processions, but on the royal train informality rules in dress and life generally. King George made the rule when he arrived in Canada.

The last two cars of the train are the royal couple's own little rolling kingdom. They haven't set foot in the other 10 cars carrying their entourage and retinue.

They rise early if they have had a good night's sleep, late if engagements keep them up after midnight, breakfast alone and have afternoon tea alone.

In many respects the train is Buckingham Palace in miniature. The King's mail arrives by the fastest route to England and is attended to just as if he were at the palace or at Windsor. Hundreds of letters have arrived daily, a few of them "crank letters, more asking for autographs, but most of them wishing the King and Queen good health and pledging Canadian loyalty.

## BRITAIN PROMISES FULL MILITARY AID FOR RUSSIA

**London—Prime Minister Chamberlain gave Russia an unqualified promise of armed assistance against aggression and announced a foreign office representative would be sent to Moscow to speed up negotiations for an alliance linking the Soviet with the Anglo-French peace bloc.**

The prime minister, following a long cabinet meeting, gave the House of Commons one of the most optimistic reports since negotiations with the Soviet started several weeks ago, but he admitted "a number of difficulties over Latvia's request for guarantees to Latvia, Estonia and Finland, still remain."

The government has worked out a formula which the prime minister said he hoped would ensure co-operation among Russia and the two western democracies against aggression. At the same time, he said, the formula would not encroach upon the interests of other states.

Informed sources said an agreement had been reached in Paris, London and Moscow on full military co-operation among the three powers if any of them is the victim of unprovoked aggression in Europe. What remains to be settled is the procedure to be followed in the event of indirect aggression against Russia through an attack on one of her Baltic neighbors.

Russia takes the view that if Germany attempted to undermine the constitutional authority in Latvia, Estonia or Finland—the Baltic states bordering the Soviet—it would be necessary to move the Red army into those countries to prevent them from being disrupted from within as was done before Germany took over Czechoslovakia.

Technically such a move would be an act of aggression on the part of Russia although actually, Russia and Britain are to be marked as that ordered progress and that prosperity which have been theirs in the past. And I pray that our great nations may even in the future walk together along the path of friendship in a world of peace."

Some 80 guests assembled before the dinner in the east room and lined up in accordance with their precedence as determined by the protocol division of the state department. The King and Queen descended at the appointed hour and stood at the center door while the guests were presented.

## FRIENDS MEET AT STATE FUNCTION AT U. S. CAPITAL

Washington.—King George VI and President Roosevelt exchanged toasts with mutual expressions of hope for a peaceful world in future years.

A state dinner formally opened the occasion. It climaxed the first day of the visit of the King and his gracious consort in the United States capital.

The horseshoe banquet table gleamed with white napery, gold plate and fine china as the president, seated at the outside curve in the horseshoe with Queen Elizabeth beside him, arose from his place to toast the British monarch.

The arrival of the British sovereigns, said the president, was a fitting occasion for festivities. But he called also for "thanks for the bonds of friendship between our two nations."

The United States and Great Britain, he continued, had made their principal contribution to civilization by showing that international grievances can be settled peacefully. In illustration he pointed to the settlement of a recent dispute over two uninhabited Pacific islands that each claimed to use for aviation purposes.

"If this illustration of the use of methods of peace, divorced from aggression, could only be universally followed, relations between all countries would rest upon a sure foundation, and men and women everywhere could once more look upon a happy, a prosperous and a peaceful world," Mr. Roosevelt said.

"May this kind of understanding between our countries grow ever closer, and may our friendship prosper. Ladies and gentlemen, we drink the health of His Majesty, King George VI."

The King, seated opposite the president with Mrs. Roosevelt, and both he and the Queen were "deeply touched by the reception and expectation with which they were welcomed to the Angle-French peace bloc."

The prime minister, following a long cabinet meeting, gave the House of Commons one of the most optimistic reports since negotiations with the Soviet started several weeks ago, but he admitted "a number of difficulties over Latvia's request for guarantees to Latvia, Estonia and Finland, still remain."

"As I drink a toast to you, Mr. President, I wish you every possible health and happiness. I trust and believe that in years to come the history of the United States will continue to be marked by that ordered progress and that prosperity which have been theirs in the past. And I pray that our great nations may even in the future walk together along the path of friendship in a world of peace."

Some 80 guests assembled before the dinner in the east room and lined up in accordance with their precedence as determined by the protocol division of the state department. The King and Queen descended at the appointed hour and stood at the center door while the guests were presented.

## Attitude Is Criticized

**British Columbia May Cut Off Relief If Men Refuse Work**

Victoria.—The British Columbia government has refused all unemployment relief to single men if they do not show a better attitude toward work offered, Labor Minister George S. Pearson said. The minister was commenting on what he termed lack of response to the provincial government's mining and forestry training scheme.

For 800 posts in forestry camps only 543 applications have been received so far, he said. There were only 324 applicants for 200 places in mining and 60 of these were unemployed.

Mr. Pearson criticized the "reluctant" attitude of some groups and said British Columbia might have to follow the lead of Ontario and other western provinces in cutting single men off relief.

Cut off relief in other provinces, many young men are drifting west, he said. No relief will be given eastern transients by the British Columbia government.

**Continuous Service**

London.—The air ministry announced part of the London area's balloon barrage, intended as protection against air raids, would be discontinued continuously. The auxiliary air force has been called out to handle the job for four months when the regular air force will take over.

Mrs. Fred Palmer, of Claresholm, has gone to Prince Albert, Sask., for a month's visit with her daughter and son-in-law, Mr. and Mrs. H. Mascho. She was in Saskatoon when the King and Queen arrived there.

**GREYHOUND**

Rain over the week end kinda marred Sunday sports, including fishing. Experiments in the growing of tobacco are now in progress in the Creston district.

The Columbus Club defeated Michel-Natal 9-2 in a game here on Sunday afternoon.

Mrs. Whecroft, of Coleman, has been visiting her sister, Mrs. G. Luck, at Drumheller.

A taxi driver charged with using profane language, protested that the complainant, a woman, was no lady.

A front porch is being built on the West Blairmore residence recently purchased by Wm. Johnson.

The appearance of Mr. Aberhart on the screens of two Edmonton theatres brought forth shouts and boos.

Construction of a residence for Mr. T. Costigan on Fifth Avenue, near the McLeod property, has commenced.

Three 14-year-old Calgary boys who pleaded guilty to charges of robbery, were ordered to be whipped by their fathers.

Joe Saad, formerly of Blairmore and Coleman, now of Rocky Mountain House, is a business visitor to Coleman.

Ernest Ringland, of Macleod, has invented a grasshopper bait spreading machine which will spread bait a distance of forty feet at one time, and is very cheap to operate.

Supt. E. C. P. Salt, formerly connected with the Mounted Police detachment at Lethbridge, has been appointed to succeed the late Supt. J. O. Scott in Prince Edward Island.

The violin recital held at Cole's theatre, Bellevue, on Wednesday night by Frank Hosek was very well attended. Thanks are extended to Mr. Cole for the free use of the theatre for the occasion.

A Lundbreck mine has secured a contract to supply coal to the following schools: Passburg, Burnis, Lundbreck, Lee, Gadshill, North Fork, Maycroft, Chapel Rock, Willow Valley, Olin Creek, Todd Creek and Tanner.

A friend of ours in England, who has been a continuous subscriber to The Enterprise for thirty years or more, this week forwarded a renewal, stating "I have just remembered that my subscription is due. I cannot do without it."

Rev. Ralph C. Crouse, who recently resigned as pastor of the Bible Institute Baptist church, has decided to remain in Calgary and continue as pastor of a Baptist congregation, whose services will be held in the Central Church of Christ.

Now that the King and Queen are safely tucked away on the C.P.R. flagship, the next important event will take place in Blairmore on July 1st, followed a few days later by the Calgary Stampede. If you attend either, do not expect bronze medals.

Mrs. David McDougall, well known western trail blazer, died in an auto crash near New York on Tuesday while enroute to attend the World's Fair. Mrs. McDougall was in her 88th year, and had been a resident of Calgary and Edmonton for a great many years.

The Aiello family had a reunion at Fernie recently. Miss Eleanor, who graduated with high honors from the Alberta University; Dr. Albert, of Drumheller; Dr. Evelyn, of Moose Jaw, and Dr. Emil, of Coleman, by pre-arranged all arrived to give their parents, Mr. and Mrs. Joseph Aiello, a big surprise.

A car driven by Alfred Hatfield went over a bridge east of Crow's Nest Lake on Sunday afternoon, landing in the river about eight feet below. Although the car was almost submerged, the two occupants were extricated and taken to Coleman hospital. Mr. Hatfield suffering from a broken collar bone and several broken ribs, Mrs. Hatfield severe cuts and bruises.

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leading for holidays or short trips, bridge parties, teas, dinners, reunions, anniversaries, etc. Please items in 11 or hand them in at The Enterprise office not later than Thursday evenings.

Parallel parking has been made law on Main Street at Macleod.

Local district streams have this week reached the high mark of the season.

Black Diamond's stampede is to be held Wednesday and Thursday of next week.

Mr. and Mrs. F. Vernon, of Fernie, are taking in the world's fair at San Francisco.

The Fernie Free Press has a new idea of "simplified spelling." They use the word golfers "golperers."

Clyde Jessup, returning officer for the Macleod federal riding, was in The Pass from Nanaimo last week-end.

Saturday last, pay-day, was very noticeable in this district. All places of business reported brisk trade.

L. L. Morgan and C. J. Tompkins joined others to attend a meeting at Macleod on Monday afternoon.

Scouts turned out in a body on Saturday last to attend the funeral of Thomas Godwin Llewellyn at Coleman.

Frank Costanzo, well known footballer, sustained a broken leg in a scrummage in a game at Fernie on Sunday evening.

About 130 Shriners and their families from the district between Medicine Hat and Calgary held a picnic outing at Brooks on Sunday last.

Owing to weather and road conditions, there is very little prospect of a Fish Club outing this coming Sunday, in which event it would be postponed to the following Sunday.

The home of Mr. and Mrs. R. B. Smith at Lundbreck was the scene recently of a family reunion, when they had with them their four sons, Lynn, Harold, Bernard and Felix, and two daughters, Elsie and Rachel.

Mr. and Mrs. S. Trono, of Blairmore, wish to announce the engagement of their only daughter, Beatrice Mary, to Mr. T. J. Costigan, eldest son of Mr. and Mrs. J. T. Costigan of Stettler. The marriage will take place in July.

Michael Moore, of Coleman, sustained a badly fractured ankle when he slipped under the wheels of a moving C.P.R. freight car near Fernie on Tuesday afternoon. Rushed to hospital, it was found necessary to amputate the limb above the ankle.

Mr. and Mrs. T. O. Davies, of Victoria, formerly of Hillcrest, announce the engagement of their elder daughter, Bessie Muriel, to Mr. Robert Gardner Wilson, youngest son of Mr. and Mrs. M. Wilson, of Coleman, the marriage to take place in Victoria next month.

Some local Waltonians are planning on sending all fish over fourteen feet in length or 190 pounds in weight to the new Rotary Prehistoric Park near Drumheller. They hope to find a market for the average size fish in the creek with a salmonine factory in New Brunswick.

The engagement is announced of Miss Margaret Lowell, only daughter of Mr. and Mrs. W. L. Shera, of Lethbridge, to Mr. Gordon R. Thorpe, son of Mr. and Mrs. W. S. Thorpe, of Victoria, B.C., the marriage to take place quietly in Calgary the latter part of this month.

Many expressions of appreciation were heard of the public appearance here on Saturday evening, and at Crow's Nest Lake Sunday afternoon of the Lethbridge Salvation Army band. The band also attended the funeral of the late Albert E. Knowles at Coleman on Sunday afternoon.

A Calgary concern has been enquiring about a man named Harkness, believed to be travelling through the Crow's Nest Pass under another title.

Thirty years ago, a sturgeon was caught near Bonners Ferry that measured nine feet in length and weighed only 350 pounds. According to some local qualified fisherman, it should have weighed a ton.

V. Rinaldi returned Wednesday from Vancouver.

Mr. and Mrs. D. R. McKay returned over the week-end from a visit of a couple of weeks with relatives and friends at Great Falls, Montana.
